

INTERNATIONAL RAW MATERIALS LTD

**Senior Corporate Accountant
Philadelphia, PA**

International Raw Materials LTD (IRM) markets and distributes crop nutrients and industrial commodities through our extensive distribution system. We are committed to connecting agricultural and industrial customers to critical inputs through innovative, safe, and sustainable logistics solutions.

Duties and Responsibilities:

- Coordinate with other departments and stakeholders to prepare comprehensive monthly, quarterly, and annual producer reports with assistance from the supply chain management team
- Analyze monthly operating results, manage balance sheet and income statement accounts, and prepare journal entries
- Manage and improve accounting workflows by leveraging automation and other tools to increase efficiency and improve data quality and reporting cycles
- Exercise professional judgment in evaluating accounting treatments, risks, and process improvements, escalating issues as appropriate
- Collaborate closely with the global team on ongoing account management, technical accounting issues, compliance filings and overall process improvement
- Serve as an integral team member by assisting with annual financial audits
- Monitor compliance with GAAP, internal controls, and company policies; advise management and leadership on potential accounting or compliance issues
- Partner with business development, sales, marketing, and other teams to provide financial insights, reporting, and analysis that support decision-making
- Lead or contribute to detailed financial analyses and special projects, including process improvement initiatives
- Identify and implement process enhancements that improve accuracy, efficiency, and scalability across accounting operations

Candidate Profile:

- Bachelor's degree in Accounting, Finance, or related field
- 5-10 years of professional accounting experience
- A team player who enjoys working in a dynamic environment
- Ability to prioritize and manage multiple responsibilities simultaneously
- Solid verbal and written communication skills
- Strong analytical and problem-solving skills along with the ability to take initiative

- Proactive, solutions-oriented approach to improving accounting processes through technology and automation
- Strong organizational skills and attention to detail, with commitment to accuracy
- Desire to learn new areas and assume additional responsibilities
- CPA license preferred, or plan to work toward one
- Strong research skills with a working knowledge of GAAP
- Knowledge of Microsoft Excel, including data models, automation, and integrations
- Experience using Power BI, Microsoft Fabric, or similar analytics platforms; interest in applying AI tools a plus
